

BREAST CANCER ACTION

INTERESTED IN JOINING Breast Cancer Action's BOARD OF DIRECTORS?

For the past 25 years Breast Cancer Action (BCAction) has been the national watchdog of the breast cancer movement. We have been shifting the balance of power away from those who would profit from breast cancer and into the hands of patients who deserve unbiased evidence-based information, better treatments and higher standards. We educate, organize, and take action for systemic change in three areas:

- breast cancer screening, diagnosis and treatment;
- root causes of breast cancer; and
- pink ribbon marketing and culture.

Our mission:

To achieve health justice for all women at risk of and living with breast cancer.

Breast Cancer Action is proud of our past accomplishments, talented staff, compelling programs, exciting strategic plan, and an expanding national presence. We anticipate having an even greater impact in the years ahead.

As a Board member, you would join a dynamic and committed leadership team to effect strategic guidance of the organization and support to the Executive Director. You would also play a vital role in defining the financial needs of the organization and in fundraising to meet those needs.

Candidates for BCAction's Board of Directors recognize our unique accomplishments, are inspired to help us meet our always ambitious goals and have the particular experience and expertise that would complement those of current board members to enhance our efforts to achieve greater impact. They will also bring their personal and professional networks to complement our knowledge base and will ensure representation of the multiple constituencies affected by breast cancer.

If this sounds like you or someone you know, please email Executive Director Karuna Jaggar at kjaggar@bcaction.org and indicate "Board Inquiry" in your subject line.
